

Exepto

Flexion
The Microscope Family

Designed,
developed and
made in Germany

We want **satisfied** dentists.
And **happy** patients.

Flexion Exepto

Exceptional. Clear.

Since 2007, CJ-Optik has been a high-performance company in the field of dental microscopy. With distributors in more than 90 countries worldwide we go for efficient solutions in the interests of dentists and patients.

Our goal is to optimally design the Flexion dental microscope family with every evolutionary stage for the most modern applications and treatment methods.

This is also the case with the new Flexion Exepto dental microscope. It is exceptionally easy to use and thanks to its compact design you can master your treatment comfortably and at the highest optical level.

Exepto

Ergonomic working made easy.

CJ-Optik Flexion microscopes stand for maximum flexibility and ergonomics. Two values that apply especially to the Flexion Exepto thanks to its compactness. The Flexion Exepto has the smallest housing of all models of the Flexion family making it a very flexible tool for your treatments. The magnification changer, which is equipped with the three most frequently used levels, ensures quick changes. Even beginners quickly become familiar with the microscope. Exepto is everything you need.

Technical Data

	Flexion Exepto
Magnification System	3-step apochromatic magnification changer / 0.7x, 1.0x, 1.45x
Eyepieces	Widefield eyepieces WF 12.5 x Widefield eyepieces WF 12.5 x / Reticle *
Tube System	F = 170 mm apochromatic / 180° tiltable tube F = 200 mm *
Stereo Base	24 mm for enhanced 3D vision
Focus System	VarioFocus ⁴ 200 - 350 mm / Plan-APO / glass protection * VarioFocus ⁵ 210 - 500 mm / Plan-APO / glass protection * VarioFocus with hydrophobic glass protection *
Illumination System	Fanless high power LED 5.500 K / 65.000 h life time
Filter System	Orange Filter
Movement	MonoGlobe, 355° Axis control
Handles	Ergonomic handles, 360° adjustable
Asepsis	1 x Asepsis set for the handles and knobs (sterilizable)
Documentation	Integrated beam splitter 50:50 4K-Imaging-Port / FullFrame * HD-Imaging-Port / APS-C * Phone-Imaging-Port / Smartphones * MicVision App (iOS and Android) * MicroVis Software *
Stands	Mobile stand *, Wall mount *, Ceiling mount *, Floor mount *, Dental unit *

* optional
